Description
Implement MarkDone functions according to the specifications

Associated revisions

Revision 8d12fc9f - 29/10/2024 12:57 AM - Sachin Divekar

Implement MarkDone callback for batches #18361

This commit adds the MarkDone callback functionality to the batch processing framework.
The MarkDone method is called automatically when a batch completes, allowing applications
to perform post-processing tasks.

Changes:

1. Added BatchDetails_t struct to hold batch completion information
2. Updated BatchProcessor interface to include MarkDone method
3. Modified batch summarization to call MarkDone after completion
4. Added MarkDone implementations in example programs

Example usage can be found in the jobs/examples/batch-mailbatch.

Revision 5e56ea1d - 29/10/2024 06:21 PM - Sachin Divekar

Fix a bug introduced in the last commit due to which failed batch rows are not getting proccessed correctly #18361

Revision 9e26b4f9 - 30/10/2024 03:20 PM - remiges.safwank

fixed bug update batch_results not carry forwarded to markdone #18361
