Update outputfile parameter in slowquery record #20962

- addedoutputfile in the query to update slow query result
- updated cache retrival to handle outputfile as well

Revision 28f4eafc - 14/04/2025 05:10 PM - Sachin Divekar

Merge pull request #11 from Tushar-Remiges/main

Update outputfile parameter in slowquery record #20962

History

#1 - 26/08/2024 11:06 AM - Kanchan Barve

- Status changed from New to In Progress

#2 - 26/08/2024 06:49 PM - Kanchan Barve

- % Done changed from 0 to 70

till now i've done followinng updates

- modified updateslowQuery in jobmanager - updated outputfiles in batches table.
- modified SlowQueryDone() - added outputfile parameter ,updated getting batchdetails and updating outputfiles and result accordingly.
- tested SlowQueryDone Result.

#3 - 28/08/2024 07:13 PM - Kanchan Barve

- In SlowQueryDone() if key exists in redis then result and outputfiles are returned from redis.[In redis outfiles and result updated along with status]

#4 - 03/09/2024 03:31 PM - Kanchan Barve

- added status-based condition added for output of SlowQueryDone()
