

Alya - Task #26343

Implement logging for web service start and stop events

24/03/2025 11:42 AM - Sachin Divekar

Status:	New	Start date:	24/03/2025
Priority:	Normal	Due date:	
Assignee:	Sachin Divekar	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Create a Gin middleware to log web service start and stop events. This middleware should log a "start" and "end" message for each web service call.			

History

Actually, I'd prefer one log entry, not two, at the end of each WS call, logging details about the call plus the duration.
